DXpedition News

Conway Reef - 3D As mentioned in Issue 534, a team of eight DXers will be on from Conway May 18-27, as **3D2AM**. Operators OH2BH, N7NG, ZL1AMO, SM7PKK, JG2BRI, OH1RY, VE7SV, and VE7CT will board the schooner Yasme in Fiji for the sail to the reef. The Icom rigs will be transmitting on 1823, 3503/23, 7003/23, 14023, 21023, and 28023 kHz on CW, and 1823, 3785, 7085, 14145/185, 21285, and 28485 kHz on SSB, listening as announced. During the WPX CW test, they may operate 1 kHz up from the bottom of the bands. QSL the HF contacts via the Yasme Foundation, Box 2025, Castro Valley CA 94546. The team will have a 6-meter beacon on 50.110 MHz; 6-meter contacts can be confirmed via JA1BK. Thanks to the Yasme and Northern California DX Foundations, Canadian Airlines, the Japanese CQ Magazine, and Icom America for their assistance.

Edited by Chod Harris VP2ML

The DX Bulletin

America's Premier Weekly Amateur Radio Publication

Svalbard - JW LA1MFA and LA5QFA will be active as **JW1MFA** and **JW5QFA** May 10-14. Try 14010, 21010, 28010, 14175-195, 21275-295, and 28475-495 kHz. They'll also be on 50.1 MHz. QSL to Kjell Berg LA1MFA, Finnfjord, 9300 Finnsnes, Norway. Then LA9VDA and LA9ZV will be active as **JW9VDA** and **JW9ZV** May 24-28. QSL home calls.

Cayman Island - ZF Joe WA6VNR and his wife Nancy N6RLE will be on as **ZF2AH** and **ZF2JT** July 1-14, on CW and SSB. Look for Joe on 7025, 14025, and 21025 kHz, and Nancy on 28495 kHz. QSL home calls. DXers chasing YLDXCC can contact Nancy at her *Callbook* address for skeds.

Reserve Your Island - WPX CW

- **ZW5B**, the Araucária DX Group's club station, will be operated by Ville OH2MM in the single-operator, all-band category.
- **8P9AQ** will be a multi-single entry from Barbados, by Bob Mitchell N5RM, and Darin Divinia WG5J. They'll be there May 22-30, and Darin will be on as **8P9AP** outside the test. QSL via home calls.

Shortly Noted

- **4NØJRT** will be on during May from the Yugoslav Radio and TV Corporation. QSL YU4ERT. (Tnx. DXNS.)
- **3D2XV** is "Bing" Crosby VK2BCH on Rotuma, until May 20. Bing operates mostly SSB, including nets. QSL Box 344, Forster NSW 2428, Australia.
- **FR5AI/E** is on from Europa. He usually stays about one month. Try 14008 kHz at 1220-1420Z. QSL FR5AI.
- **S79FT** is Frank Turek DL7FT. QSL Box 1421, D-1000 Berlin 19, West Germany.
- **RT1U** is the special contest call of the club station UT4UXW. QSL to Box 785/1, Kiev 58, 252058 USSR.
- **HFØPOL** is the Polish club station on King George Island, in the South Shetlands. Try weekends on 28560, 21260, 14220, or 7060 kHz. QSL to KB6GWX.
- **ZS8MI** has a new operator for the next year: Gerhard Everett ZS5AEN. He is a brand new ham, and has no experience with DXing or pile-ups, so be patient. QSL route will be announced. Peter ZS5E made about 23,000 QSOs during his 13-month stint on Marion Island.
- **1SØXV** QSL cards should not be mailed to the Moscow address yet. Romeo is trying to get a stateside manager, which would reduce the non-delivery problem that plagues the Moscow address. Hang on to your cards for future news.
- **PA3CXC/STØ** made about 24,000 QSOs, despite some equipment problems. They plan a return trip in November. QSL cards are due out from PA3CXC in early summer. Donations would be much appreciated.
- **SSB Net** check-ins: **14222** kHz: ZLØAIC 5W1KY; **14227**: VK9LA 9M8FH VK9TR FR5ZC 3B8AD FT5XA FT5XH 5W1KY KHØAC 3B8CA 3B8AB; **14256**: UD7ØDR FH8CB; **21333**: ZS9A OY9JD ZD9BV V51GB.
- **Islands On The Air**: **G4OLF**, **G4SDF**, and **GØDSN** will be active from Isle of Arran (EU-08) May 19-26. Worked All Britain chasers should watch for rare NR and NS squares. **A43KM/Ø** is the Royal Omani Amateur Radio Society's call May 17-24, from Kuria Muria Island (AS-10) (ex-VS9H.) QSL to A41JV.
- **RTTY** report: Regulars: **JY9SR** 14090 kHz at 0045Z; **FP5DX** 14080 0000Z; **PZ1BS** 14084 0100Z; **TA3D** 14086 0020Z; **OD5NG** 14094 0220Z; **V44KM** 14085 0045Z. Propagation Watch

After bottoming out at 121 on May 5, the solar flux rebounded back above 150. With any luck, solar activity will continue to increase until mid-month. We expect another slide in flux values in the second half of May, to a minimum around June 1.

The combination of very low solar activity and increasing absorption due to the lengthening days in the northern hemisphere has been tough on 10 and 12 meters. High-latitude paths have been very poor, leaving only the north-south path and the tropics available on the higher bands. 15 meters is the best band for daytime DX, with some polar-path openings when the geomagnetic field is not too active. 17 meters has been very good in the early morning and late afternoon, local time. It is open later at night than most DXers think; check it out around midnight. 20 meters provides many DX opportunities. The long path around local dawn remains a good time to check on a daily basis. 20 is also good around local sunset, and into the early evening, to the east and north. As with 17 meters, it is open to some part of the world much later than most DXers can stay up at night. The relatively high levels of geomagnetic activity and seasonal effects have hampered low-band DXing.

Sunspot Region 6018 was increasing in magnetic complexity as it rotated around the back of the sun in late April. It may help boost solar activity levels this month back to the 200+ range. If this increase in activity is not accompanied by a series of flares, we should see improving conditions on the higher bands in mid-May, with increased signal strengths, and longer openings.

Notes From All Over

▪ Los Angeles Section Manager Phineas Icenbice W6BF is working with the City of Los Angeles to reduce amateur tower restrictions. Assistant Section Manager Joe Merdler N6AHU recently met with councilman Hal Bernson, who may be able to help city hams. W6BF requests that any contact with members of the Los Angeles city council or their staff be coordinated through Joe, at (808) 983-0555.

▪ According to the April 6 issue of *Science* magazine, a team of scientists will sail to Heard Island next January, to study propagation of sound waves through the ocean. Walter Munk of the Scripps Institution of Oceanography is coordinating the trip. Maybe an enterprising amateur can hitch a ride, and put Heard Island on the air.

▪ **For Sale:** Mint Icom IC-751 with 500-Hz filters and IC-SM5 with Heil element. $1095 delivered, from Jim Carmody NN5O, 15910 Congo, Houston TX 77040 (713) 466-1856 after 6pm CDT. And San Hutson K5YY will part with both Kenwood 500-Hz filters YG-455C1 and YK88C1 for $150. Address: 6 Hickory Ridge, Texarkana TX 75503, (214) 832-3344. [The DX Bulletin will occasionally help **active DXpeditioners** buy or sell DXpedition gear, as one of our many services to those amateurs who use their time and money to put rare countries on the air.]

▪ **Thailand** club stations **HSØAIT, HSØB, HSØE** and **HSØF** are now licensed for 24-hour-a-day, seven-day-a-week operation. QSL HSØAIT to Chamlong Chuathai HS1AAM, 48/8 Suthisarn Road (Ext. 1), Huaykwang, Bangkok 10400, Thailand, HSØB via WA4BQK (for QSOs Dec. 1989 and after), HSØE via HS1BV, and HSØF via HS1YL. HS1BV is QSL manager for the Radio Amateur Society of Thailand, and can help with other HS callsigns. There are many no-code, VHF-only licensees in Thailand. Thousands more await their calls. About 10 individual Thais should be on HF with their own callsigns soon. HS1JN is already active, for example. A few long-term resident foreigners may be able to get reciprocal operating permission soon, but not temporary, DXpedition-type visitors. Finally, some club stations should be on from the various provinces soon. HS6AN is one such, in Sakhom Nakorn province. Look for more activity from Thailand in the future.

B . A . N . D . P . A . S . S

*Key to Bandpass: Callsign, frequency, UTC, day of the month, state. * = long path. P = packet.*
All "portable" calls listed with country of operation first, regardless of format used on the air.
